Geology and Geophysics

University of Bucharest
2006-2010

Mathematics/Informatics

"Carol I" Highschool, Fetesti
2002-2006

INTRODUCTION

I am a Front-end developer passionate about the web and creating an amazing user-experience. I have a strong knowledge of the inner workings of the web and the ability to bring websites to life from a mock-up to a fully functional web app.

EXPERIENCE

Front-end developer at *beeanco*

01/2020-present

Developing and maintaining high performance and adaptive modules.
Write clean, well structured maintainable code that conforms with accepted standards.
Technologies used:
JavaScript/TypeScript, Svelte with Sapper, SCSS for styling (using Bulma), MySQL, GraphQL, Redis, Elasticsearch, CircleCI, Docker, WordPress;

Front-end developer - Training Course at *Coders Lab IT Academy*

09/2019-11/2019

Developing a strong base of knowledge related to front-end development.
Technologies used: HTML & CSS (including SASS), JavaScript, jQuery, Ajax, React, Git, Gulp, Webpack, NPM.

Logistics operator

Various jobs in the Logistics industry prior to switching carriers.

COOL THINGS I MADE

[beehivve.com](#)

Presentation website build with Svelte, Sapper and Firebase.

[furniture-site](#)

An e-commerce application build with React and SCSS (styled components), using Webpack and a Firebase back-end.

[tech-test](#)

A webpage build for a technical interview based on a given psd, implemented pixel perfect using SCSS.

[furry-game](#)

A simple game written in React.

SKILLS

HTML/CSS

JavaScript

Svelte

React

jQuery
